

Tiling p3 ou R3

		
<p>Take a rhomb piece of paper. (two equilateral triangles)</p>	<p>Draw a simple curve starting in 1 and going to 2.</p>	<p>Cut along the curve and glue after a rotation of 120° with center in the point 1.</p>
		
<p>Draw a simple curve starting in 2 and going to 3.</p>	<p>Cut along the curve and glue after a rotation of 120° with center in the point 3.</p>	<p>This is your pattern for this tiling group.</p>

We fulfill the plane by using rotations of angle 120° and translations:
